How to Prepare for a Showroom Visit

We want to make your stone shopping experience as smooth and seamless as possible. To help you make the most of your Rocktops showroom visit, we've put together a list of important things to bring, and tips to keep in mind when choosing your stone countertops.

Measurements

Bring Measurements for Project Focus Area

- For the best results, measure any countertop length from wall to wall and the depth.
- Download Our **Kitchen** or **Bathroom Templates**
- Use the space in the templates to draw a diagram of the countertop space. Include the spaces for sinks, cooktops, bar sinks, bar tops, islands, peninsulas, and more. If possible, indicate where there are walls in the space.

Pictures

Bring Pictures of Your Current Space

- Grab a few photos of the current layout to help direct you in your decision.

Visit Rocktops Online Gallery and Pinterest

- Check out our **Gallery** and our **Pinterest board** to inspire your design.

Inspiration

Save Project Inspiration Pictures

- Bring any pictures you've collected that inspired your project design.

Paint Material Samples

Bring Any Paint & Material Samples

- Bring along any materials being used in the same project room: paint, cabinets, drawers, fabrics, flooring, etc.

Other Important Things to Know:

Our giant on-site warehouse (the Slabratory) has a fantastic variety of stones that you can pick from. Some stones work best in certain rooms, and it can sometimes be overwhelming to review all of the choices. That's why we've put together resources to help you narrow down specific stones that you think will be right for your project based on your needs, and the function of the space. Check out some of the resources below to learn more about countertops, the differences between stones, and more.

- **Countertops 101: Where to Start**
- **Granite vs Quartz: Which is Best for You?**
- **The Quality of Quartzite**
- **Rock Your Outdoor Space**

Rocktops' Slabraratory is located at 1140 S Enterprise St in Olathe, KS. When visiting, you'll find parking spots on the first row closest to the entrance. As you arrive, check in at the front desk and a representative will greet you. It's important to note that children are allowed in the showroom, but any under the age of 14 must remain supervised by a parent or guardian. To keep everyone safe, there are some areas of the facilities children are not allowed, like the slab warehouse.
